

Welcome to Our School

On behalf of our School community I invite you to consider Coombabah as the school for your child. I am proud of the successes our students have achieved and as a parent I know first-hand that one of the most important decisions we face in life is which school we choose for our children.

Our School's vision - "A Community ~ Building Productive Partnerships and Pathways" encapsulates my personal philosophy of establishing a positive working relationship with both students and parents that will facilitate the best outcomes for the future.

I can confidently say Coombabah is at the forefront of secondary education in Queensland.

We would be delighted to have the opportunity to guide your child along the pathway to a happy and successful life.

Chris Kern
Principal
