Principal's Message

The last two weeks have been about reviews. Firstly I was on the review team in North Brisbane. What an amazing experience to be immersed in another school, whilst at the same time reflecting on our journey. Our progress since our last review in 2019 has been astonishing given all of the challenges during that time. Staff and families are to be commended that they have engaged with our strategic agendas during these turbulent times. This included defining our purpose statement of "Creating Successful Outcomes".

This week we hosted a four person regional team to undertake a Scan and Assess of our inclusion processes. Very positive feedback was provided on the culture and expertise across our school along with some key improvement strategies that will further enhance our work in the inclusion space. The report is due later this term. As a Principal I greatly appreciate the opportunity to get feedback on our operations and continue our improvement agenda. As the saying goes "feedback is a gift".

Congratulations to The Arts team on the enormous success of Music Night with some outstanding solo performances. I wish to thank the teachers, students and parents for attending this evening.

Thank you to families for your understanding as the works continue on our front boundary. The new building is soon to commence which will see increased traffic at the southern gate (closest to Brisbane Rd).

Mr Chris Kern
Principal

Rosie's Foodbank

This project started as an assessment task for Year 10 Food Specialisations students. The theme of the course is to make students better global citizens with better preferred futures. They studied food insecurity and looked at how some people had plenty to eat and others have very little.

Students were asked to bring in food items to donate and the whole school became involved. The classes were challenged to bring in the most items and 9F won. They were rewarded with a pizza lunch provided by the P & C Association. We collected over 380 items and we were happy to pass these onto Rosie's last week.

Year 12 students also conducted a chocolate sale on Valentine's Day and raised \$170 which was donated to Rosie's with a school cheque.

Creating Successful Pathways

In the Spotlight: The Arts Department

The Arts is a talented and creative department consisting of Jason Marquet, Alison Worthington, Catherine Tonks, Elena Morton, Kathryn George, Stacey Newman, Dave Albion, Kaylee Berriman, with specialised programs including iGniTe Performance and iGniTe Visual Arts. The Arts covers five core subjects:

- Drama
- Dance
- Film and Television
- Music
- Visual Arts and Digital Imaging

We recently celebrated our talented music students with the annual Music Night – see the photos below. There was a number of exceptional performances on display. This represented for some, their first solo musical performance in front of a live audience. A big thank you to the parents and staff that came to support these budding young artists and performers and another big thank you to the tireless work of Ms George our music teacher and Sue Purton our school band teacher.

Introducing the cultural captains. These students take an active role in promoting all creative arts events at Coombabah State High School. They provide an insightful student voice that helps represent the larger arts community. All five captains take part in multiple senior arts pathways and attend weekly meetings to discuss what the creative arts should look like at Coombabah State High School.
