Overview:

Do you have talent in, or passion for the performing arts, and a strong desire to build your knowledge and skills across the dimensions of dancing, singing and acting?

This excellence program will offer you the opportunity to attend a range of workshops, excursions and other learning experiences that develop your abilities in each of these areas. You will showcase your talent in an end-of-year production that will be filmed.

CURRICULUM:

Within the Drama modules, you will engage in a variety of acting styles including Realism, acting for film and television, and non-naturalistic styles such as Physical Theatre and Comedy. You will experiment with creating and performing dramatic texts.

The Music component of the course focuses on vocal performance. You will explore styles such as Contemporary, R & B, Jazz and Musical Theatre developing a range of skills such as harmonisation, sight reading, microphone technique, ensemble and solo performance skills. There will also be opportunities for you to engage in song writing and composition.

In the Dance component of the course, you will learn the performance skills associated with a range of styles including hip hop, jazz and contemporary/lyrical. Learning experiences will focus on performance, choreography and appreciation.

This course will cater to your level of experience. You must have a desire to learn in all three dimensions of this course, majoring in one of these dimensions.

STANDARD INCLUSIONS:

- Excellence class placing you with like-minded or skilled students
- Expert teachers and industry partners facilitating your learning
- Additional timetabled lessons
- Extra-curricular experiences that are relevant and connected to the real world
